# What is On Your Mark Camp?

## About OYM

**On Your Mark Camp** was launched as an educational bridge to engage students in an integrated learning experience that develop skills, construct learning that enables students to make sense and to take charge of their cognitive understandings. Each summer we invite an intimate group of students from the age of 6-10 to take part in a five-day experience where they engage in meaningful and relative experiences.

## Curriculum

Over the course of the four-day camp, each day begins with breakfast, a gathering around the table where students discuss real-world challenges.

As the day unfolds the students are involved in physical activities, developing academic proficiencies, and participating in group projects. Each day ends with a reflection of the topics of interest that reflect diverse perspectives. The weekends with a culminating presentation that students design and present.
